Artist Statement

"The excitement of capturing a moment when I see something and it grabs me is so exhilarating. These moments are what inspire me to be an artist. I feel compelled to take a photo and then to recreate it with pastels and colored pencils. What can be more amazing than the beauty of nature, whether it's a flower, a sunset, a family pet, or a giraffe in your face.

I've been photographing and painting with pastels for many years but taking pastels with me when I travel is messy. Colored pencils answered that problem. I was surprised and excited to realize the depth of the art which colored pencils required me to learn and the quality that can be achieved!!

The hardest part now is deciding which picture do I draw next!"
